

CIR Update and June 09 Special Offer

Dear Friends and Customers,

As you know, June is traditionally a month when we write to you with our news and special offers. This year we have adopted a new format with monthly email updates and offers. If you are not receiving our monthly emails already and would like to, please send us an email and we'll add you to our emailing list. This June we are introducing our new product: the Cantiaci Wrist Torc.

For many years we have been selling a CD-Rom about Victor Schaubeger, which was produced by the Schaubeger family in Austria. They have recently released a DVD, the first documentary film about Viktor's life and work. We highly recommend this documentary to anyone interested in Viktor Schaubeger (see overleaf).

Also overleaf you will find information on our **70% discount** on tri-metal personal harmonisers, when you buy two or more tri-metal harmonisers.

With best wishes

Dolly and Jonathan

The CIR/Ancient Sources Team

Cantiaci Wrist Torc

The Cantiaci Wrist Torc is made from three copper tubes, each filled with energised water. It is worn not just as adornment but also to help with rheumatism, arthritis and to promote general wellbeing.

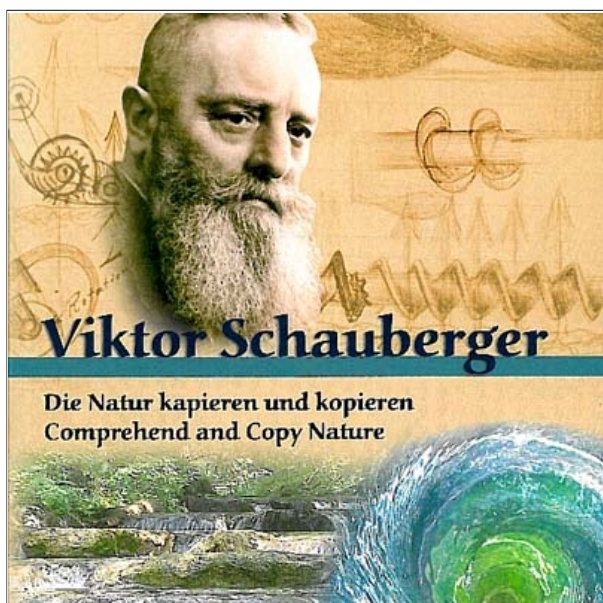

The Cantiaci Wrist Torc is available in natural copper as well as silver plated and gold plated. For the first time ever, due to popular requests, we are offering a Tri-Colour version (not to be confused with tri-metal, see overleaf). In this version each of the three tubes have a different colour (copper, silver-plated and gold-plated). There is a surcharge for this version as production is much more complicated and time consuming.

Introducing a NEW Tri Colour finish

The Cantiaci were a Celtic British Tribe living south of the Icenii in modern day Kent

Half Price Special only during June 2009	Code	Size	Metal	Regular excl. VAT	Special excl. VAT	Special incl. VAT

Cantiaci Wrist Torc	CWTtc	Sm or Lg	Tri-colour	£77	£38.50	£44.28

SCHAUBERGER DVD

The first documentary film about Viktor Schauburger. A survey of historical facts, current research and various practical applications into both technology and the natural world.

Today the Austrian forester Viktor Schauburger (1885-1958) is considered to be a pioneer of modern water research and the holistic observation of Nature. As early as the first half of the 20th century he warned of the consequences of environmental exploitation. He proposed a radical new way of looking at Nature, Science and Engineering and developed totally new concepts of energy production, in harmony with Nature. Schauburger's maxim was: Understand and Copy Nature.

His inventions include devices for refined drinking water, spiral pipes for carrying water with reduced friction, environmentally friendly river regulation, as well as power generation from water and air using the principle of implosion.

A film by Franz Fritzsche
DVD, 75 min, Deutsch/English

TRI-METAL PERSONAL HARMONISERS

For many years we have produced small numbers of Tri-metal Personal Harmonisers. These are both silver and gold plated onto the natural copper. The choice is 'gold on top', or 'silver on top'. This may sound quite extravagant when only the top surface layer is visible. However, a small discerning number of people worldwide have been swearing by the amazing synergistic effects of the plating and the harmoniser. Tri-metal harmonisers have a deeper, more healing effect.

Anyone who has read Viktor Schauburger's writings knows of the importance of these catalytic elements.

We have some stock of the following personal harmonisers, plated in the past by previous plating companies. We would like to clear this stock and are offering an amazing 70% discount on the retail price when you buy 2 or more tri-metal personal harmonisers (as long as stocks last). There is no guarantee on the plating.

If you are interested in our complete range of products, please visit www.implosionresearch.com and www.ancientsources.com

Please note, you are required to purchase at least 2 tri-metal harmonisers to be eligible for this 70% discount
